By resolution memorialized on February 19, 2020, the Planning Board approved the conversion of the 2nd and 3rd floor commercial office space in this existing building into a total of 8 residential apartments, a permitted use. The applicant is now seeking approval to convert the 1st floor space into 3 residential apartments – all affordable housing units – which would require a use variance, as residential units are not permitted on the first floor in the DD-Zone. The applicant is also requesting approval to construct an addition over the existing parking deck for an additional 8 residential units. The increase in units (to a total of 19 units) exceeds the density limits for the zone and triggers a D-5 Density variance. (DD-Zone)

Adjournment
